ITERATION - 9

System Documentation - This iteration has the collated system documentation of the final versions of all system design documentation of the ByteXpress E-commerce system.

The meticulously compiled documents consist of the updated requirements lists, complexity matrix, logical and technical narratives, technical primitive, UML activity, sequence and state diagrams as well as the test cases and screen designs for all the use cases.

Client Information - Jannes Janse van Rensburg is the co-owner of Natuurlik. He is currently working as a Business Area Manager for DSV - Global Transport and Logistics.

Table of Figures

Figure 1 – Network Diagram	3
----------------------------------	---

1. Iteration Introduction

For this iteration the ByteXpress team have compiled a document that illustrates the collated system documentation of the final versions of all system design documentation for the ByteXpress E-commerce system.

2. Network Diagram

Introduction

In this section, the ByteXpress team depicts the typical layout of the system's network diagram. This network diagram includes the server and client side of the system and the devices required for each.

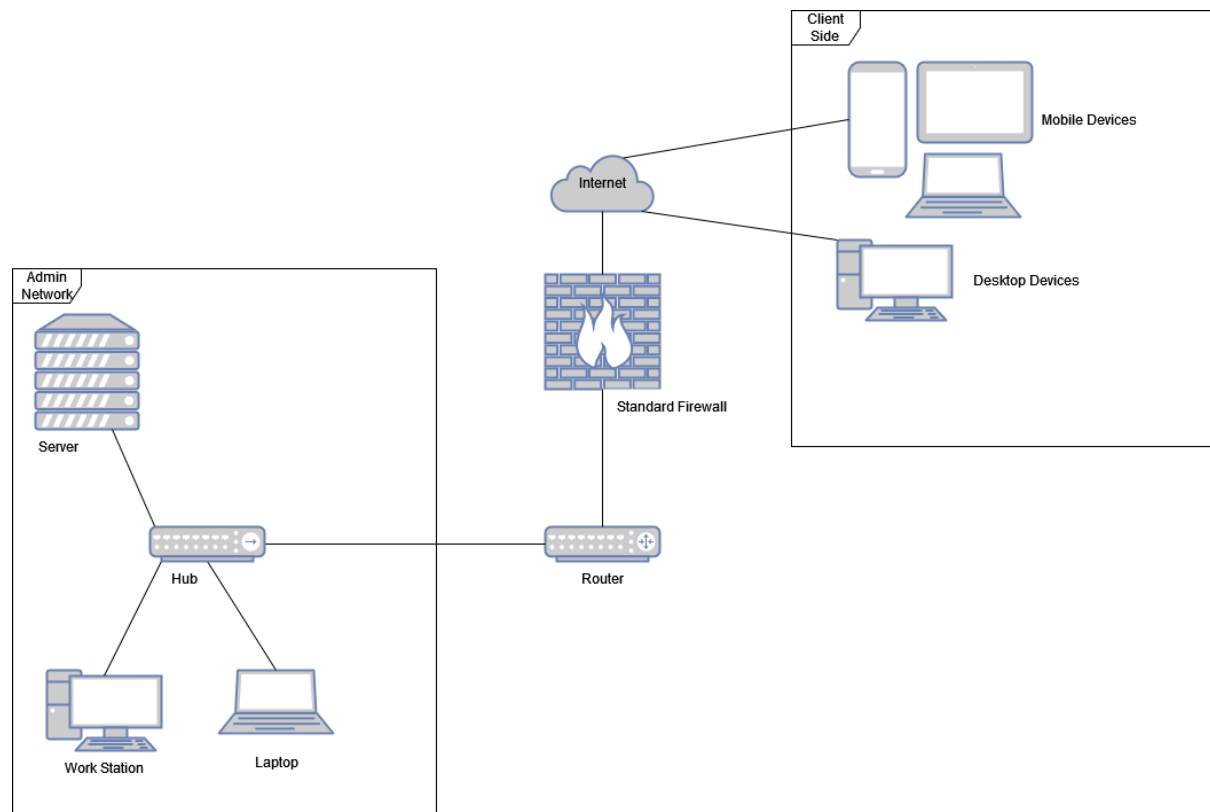

Figure 1 – Network Diagram

Conclusion

In conclusion, the ByteXpress team depicts the typical layout of the system's network diagram. This network diagram includes the server and client side of the system and the devices required for each section.

3. Iteration Conclusion

In conclusion the compiled iteration detailed the final documentation for the design and development of the ByteXecom E-commerce system. The documents contained the updated requirements lists, complexity matrix, logical and technical narratives, technical primitive, UML activity, sequence and state diagrams as well as the test cases and screen designs for our use cases.
